DO AWAY WITH OLD "EYESORES" IN PARIS

A quite delicate community problem is presented in any city by the existence of unattractive and ugly buildings. Most cities and towns have their share of structures of this kind, and Paris is one of them. They often stand in conspicuous places near automobile routes and railroad of interurban lines. They are noticed by visitors and give strangers unfavorable impressions.

Some of these buildings are simply dingy and need a coat of paint. Applying a pleasing color would work wonders and turn a decadent looking spot into a scene that appears alive and hopeful. In others the whole structure is rickety, and needs either thorough repairs, or else to be removed altogether. Yet the people who own these properties will continue to do nothing to improve them, and they seem indifferent to their appearance.

The community interest in such matters ought to be considered. It seems unfair that a pall of dinginess should be thrown over a neighborhood just because one property holder is negligent. Public sentiment has not yet reached the point where an owner could be required to keep buildings in good condition. It may come to that some time—even in Paris. But business and civic organizations might well remonstrate with real estate owners who fail to co-operate with town advancement by maintaining their own property creditably. The owners may, of course, say that they are unable to afford improvements at present costs. But it can usually be shown that poorly maintained property is a poor investment, and that better care brings returns.

A little frank talk by influential citizens of Paris with people who neglect their holdings might result in the improvements that the neighbors desire. Possibly there are some owners in Paris to whom the tactful hint should be dropped that shabby appearing property hampers the progress of the community. z

PRISONERS ESCAPE FROM PARIS JAIL

Two prisoners, L. T. Leach and Scott Gilbert, confined in the Bourbon county jail, made their escape from that place Saturday night, after the manner of several others who had been there before.

The men heated the limestone partition to a window by burning their bed clothing at its base and throwing cold water on the heated stone until it crumbled sufficiently to be pushed aside, making an opening large enough to admit their bodies. A half dozen or more escapes have been made in a similar manner during the past year. The first prisoner who found the method passed it on to others, and it has been successfully used in each instance.

Leach was sent to jail about six weeks ago on a charge of bootlegging, following a conviction a short time ago. He was awaiting the action of the grand jury at the coming term of the Bourbon Circuit Court, the charge being a felony. Gilbert was confined in the jail for an alleged assault on Ellis B. Hukill, tailor. He was reported as suffering from the effects of being gassed and shell-shocked while with the American Expeditionary Force in France. An effort is being made by the American Legion to get his record and to ascertain if his story was correct. Leach left a note stating that the jail was not a fit place for even a hog to sleep or stay in.

Gilbert was captured Sunday morning near Winchester by officials and returned to Paris in the afternoon. Leach was still at large yesterday, and nothing had been learned last night as to his whereabouts.

JUNE TERM BOURBON CIRCUIT COURT

The June term of Bourbon Circuit Court will convene on Monday, June 19. Governor Morrow has designated Judge J. F. Bailey, of Paintsville, as Special Judge to preside at this term, Judge Robert L. Stout, because of illness, being unable to preside. Commonwealth's Attorney Victor A. Bradley will be on hand.

The term promises to be a very busy one. There are fifty-one Commonwealth cases, at least thirty of which will come to trial. The remainder of the docket comprises 31 equity appearance cases, 372 old equity cases, 35 ordinary appearances and 126 old ordinary appearances.

Judge Bailey was in Paris yesterday for the purpose of closing orders for the last day of the March term of Court, over which he presided in the absence of Judge Stout.

PARIS FUGITIVE DIES IN OHIO TOWN

Staggering into the City Hall at Steubenville, Ohio, with a request for work, "Station" Shawhan, well-known in Paris police circles, toppled over and fell to the floor, death resulting almost instantly from heart trouble.

Shawhan was shot in a difficulty in Paris some time ago by Charles Clark, another negro, who is in jail awaiting trial. After being shot Shawhan disappeared and was not heard of until the officials received news from the officers at Steubenville as above.

GRAHAM SPRINGS OPENED

The formal opening of the Graham Springs Hotel, near Harrodsburg, last Thursday night, was an unusually beautiful event, with a large crowd in attendance. The house decorations were under the supervision of Mrs. Arthur Harbison, and were artistically arranged with pink roses, lilies and foliage. Manager Allin served a splendid dinner, after which dancing was enjoyed from nine to twelve o'clock. Several from Paris attended and reported having a fine time.

NEW RESTAURANT

Thos. Link, of Paris, has leased of Stuart & O'Brien their storeroom at the corner of Main and Seventh streets, and will fit up a first-class restaurant. Stuart & O'Brien have removed their office fixtures, stock, etc., to the adjoining storeroom, which was not included in the lease. Mr. Link will also conduct a soft drink stand in connection with the restaurant.

ELECTRICAL STORM VISITS THIS SECTION

Lowering cloud and vivid flashes of lightning early Sunday night sent Paris citizens scurrying to shelter, in anticipation of a severe storm. But luckily the danger passed to other sections. The storm was especially severe in Lexington, where considerable damage was done by lightning, wind and rain. So far as we have heard there was no damage done in this vicinity. Traffic on the interurban lines was interfered with to some extent, and the electric lighting system of the city was somewhat demoralized, but that was about the worst that was experienced here.

During the electrical storm Sunday night a large barn near Versailles belonging to Geo. Washington, was struck by lightning and destroyed by the resultant fire. The barn was full of feed, farming implements and livestock the latter being saved by hard work. The loss was about \$1,000, with no insurance. At the stock farm of Lawrence Bailey, a valuable cow was killed by lightning, wheat blown down and tobacco washed out of the ground.

Y. M. C. A. NOTES

The Y. M. C. A. membership contest opened Friday night with a big rally at the Y building. Miss Edith Stivers was elected captain of the women's division, and J. T. Tucker captain of the men's division. Members of both teams were very enthusiastic, and started at once securing new members. Captain Stivers signing nine new members the first evening. One of the members of the men's division is reported to have secured ten members by noon Saturday.

The men's team held a special rally and pep meeting last night at the Y building at 7:30. Refreshments were served, and plans formulated for conducting an active canvass for new members. The women's team will hold their rally this (Tuesday) evening.

Secretary Harrison announced to the ladies Friday evening that the letters "Y. W. C. A." would be placed on the room formerly used for the dining room, and that it would be used for a ladies' lobby, reading and social room.

The Boys' Band of the Y. M. C. A. furnished music Sunday afternoon for the memorial services conducted at the Paris Cemetery by the Knights of Pythias lodges. Frank Pitrella and Robert Link, Jr., both expert musicians, playing the trombone, are the latest additions to the band.

Enrollments to the girls' swimming class, starting yesterday, indicate that there will be a big class again this year. The class began at 2:30 yesterday afternoon. In the boys' swimming class Edward Merringer and James Handley passed the beginners' examination by swimming twenty feet and were awarded the beginners' badges. Several other boys in the class will be able to pass the test this week. The hour for the High School boys' swimming class has been changed from 4:30 on Mondays, Wednesdays and Thursdays to 3:30 p. m. on the same days.

TREASURY RECOMMEND REINVESTMENT OF VICTORY NOTES

The Treasury Department is recommending that owners of the 3% Victory notes, which will be redeemed on June 15, re-invest part of their redemption money in Treasury Savings Certificates. These certificates run for a period of five years, and if held for this length of time they return 25% over the cost price, or 5% per annum. If necessity demands, however, they can be redeemed at any time prior to maturity. These certificates are issued in denominations of \$1,000, \$100 and \$25, at cost prices of \$800, \$80 and \$20 each, respectively, and any individual or corporation can own up to \$5,000, maturity value, of the present issue. Both principal and interest are free from all State and local taxes and the Normal Federal Income Tax.

These certificates can be procured through any postoffice or from the Savings Division, Fourth Federal Reserve District, Columbus, Ohio.

The Paris and Cynthiana teams played off a postponed game at League Park Saturday afternoon, the Mammoths taking the long end of a 7 to 2 score. Wills, pitching for Paris, held the visitors scoreless until the ninth inning. A running catch by Cicona and the all-around batting of the Paris team featured the game. Bracke, Paris catcher, who stands second in the batting average of the League, hit a home run over the right field fence. Wills allowed but three hits off his delivery. The batteries were: For Paris, Wills and Mack; for Cynthiana, Leach, Dodd and Dugan. Webb umpired.

The game between the Cynthiana and Paris teams of the Blue Grass League at League Park Sunday afternoon was in the nature of a pitchers' duel, with Long, of Cynthiana, emerging victorious over his opponent, Miner, of the Paris team. The final score stood 2 to 1 in favor of Cynthiana. With the score standing 1 to 0 in favor of Cynthiana at the beginning of the ninth inning, each team scored one run in the final frame. Long cutting a Paris rally short before the tying run had reached the plate. Long struck out eleven men, while Miner had twelve to his credit. Each pitcher received good support from his teammates. Wunker and Backe, of Paris, and Rorer, of the Cynthiana team, featured the game with good hitting and fielding. The batteries were: For Paris, Miner and Macke; for Cynthiana, Long and Catton. Webb umpired the game, which went two hours, in the presence of a large crowd.

In the game at Mt. Sterling, Thursday between Paris and Mt. Sterling in the last half of the sixth inning with the score tied, a man on second, and two out, the game was forfeited to Mt. Sterling by Umpire Wyatt. His reason for doing so was that the Paris club left the field, and refused to play after a decision. The game up until this point was a pitcher's battle between Lefty Townsend, for Mt. Sterling, and Miner, for the Paris team. Only two hits had been scored off Townsend and three off Miner when the argument came up.

A meeting of managers of the clubs in the Bluegrass League will be held in the Phoenix Hotel, in Lexington tomorrow night to take definite action on the matter of having four games a week in the League towns. This announcement was made Sunday afternoon by President Thomas M. Russell, of Maysville. If the change is made the season will probably be split at the time the new schedule goes in, which means that Maysville will be the winner of the first half if the schedule is changed between now and Sunday. Maysville now has a lead of two games over Lexington, which could not be overcome this week.

The Presbyterians scored over the Methodists, leaders in the Church League race, in the game played on Hancock Field, Friday afternoon, the final score standing 13 to 9. This was the second defeat of the leaders during the two years of the League's existence, and first victory for the Presbyterians. The batteries were: Owens and Owens for the Methodists; Kiser and Tadlock for the Presbyterians. Features of the game were the all-around playing of Smiley and the pitching of Kiser. The game, witnessed by a large crowd, was umpired by pitcher Miner, of the Blue Grass League team.

The game between the Baptist and Presbyterian teams in the Church League, scheduled for this afternoon on Hancock Field, has been postponed until to-morrow (Wednesday) afternoon, at the same hour.

CONTROVERSY OVER NORMAL SCHOOL SITES

For some time there has been in progress a controversy between contending towns for the location of two new Normal School buildings proposed by the State Normal School Commission. THE NEWS is in receipt of the following telegram from the Courier-Journal regarding the matter:

Louisville, Ky., 1047a, June 12, '22.

"THE NEWS, Paris, Ky.
"In our opinion the honor and security of education in Kentucky depend upon absolute fairness in the selection of the sites of the two new Normal Schools by the Normal School Commission. We believe that the ruling ascribed to Judge O'Rear, Chairman of the Commission, that only sites which have buildings available for school use next September will be considered, which ruling has already caused the withdrawal of some contestants, promotes unfairness, and is unsound, and susceptible to a charge of favoritism for certain sites. We urge all Kentucky editors, for the good name of education, and in the interest of the children of the State, to serve notice on the Commission that all contestants must have a fair deal, and that no favored ruling will be tolerated. These newspapers hold no brief for any site, but they believe the press must see that justice is done all of them."

FORMER BOURBON FARMER A BANKRUPT

A voluntary petition in bankruptcy was filed in the Federal Court at Lexington, Friday by C. T. Masterson, of Muir, formerly of Bourbon county. The petition which was filed by Attorneys Raymon Connell and Denis Dundon, of Paris, listed Masterson's liabilities at \$6,536.95, and assets approximately \$5,700. The petition was referred to Chester D. Adams, referee in bankruptcy for Fayette County, by Deputy District Clerk Spencer Finnell. Masterson was engaged in farming in Bourbon county for several years previous to moving to Fayette county.

MRS. CLAY'S ESTATE VALUED AT \$150,000.

Under the terms of the will of Mrs. Sallie C. Clay, formerly of Bourbon county, filed for probate in the Fayette County Court, her estate, after it has been equalized, is to be divided equally between her children and one granddaughter.

Owing to an advancement made to her son, Sidney G. Clay, now dead, but survived by a daughter, Mrs. Clay bequeathed to her daughters, Miss Isabel Reed Clay, Miss Annie C. Clay, Mrs. Alice C. Judson and Mrs. Katherine C. Wooten, \$31,000 each to offset the advancement made to her son. In addition, bequests of \$100 each were made to Maria Brown and Clay Watson, servants of Mrs. Clay. After these adjustments in the estate have been made the remainder is to be divided equally between the daughters and the grandchildren.

Her daughter, Isabel R. Clay, was named executrix to serve without bond. Miss Clay, however, after qualifying as executrix, gave bond in the sum of \$150,000 though the estate is valued at a greater amount. For her services as executrix Miss Clay is to receive \$5,000 under the provisions of the will. The will was written May 10, 1919, and was witnessed by James S. Botts, George Vaughn and A. M. Hall.

SANTA CLAUS HERE WEDNESDAY.

Through the kindness of Frank & Co. old man Santa will be at the Bourbon Gun Club Wednesday afternoon. He will present some lucky shooter with \$10 worth of silk stockings or hose, which are donated by Frank & Co. Now, boys, get your eyes open so you can see how to hit them. Mr. Nash, of the Western shell people, will be with us Wednesday afternoon, so be sure to come out and meet him. Two of our Bourbon county ladies are expecting to come out and make their bow over the traps. Visitors are always welcome.

EDITORIAL FLINGS

Statisticians claim that dark-haired women marry the quickest, but the blonds will controvert this slur by the assertion that light-haired women stay married longer.

If you will get into your work and do the thing to-day that should be done, you will not only close the door upon a lot of waste motion and lost time, but you will open for yourself a new fountain of energy.

That grocer's daughter in Louisville who routed two burglars with "an old-fashioned tongue lashing" deserves credit for bravery and presence of mind, but it is hardly likely that her exploit will enhance her chances of matrimony.

The headline to a piece of advertising copy received by THE NEWS not long ago read: "He Couldn't Sleep For Six Years." Well, come to think of it, six years is most too long for any fellow to sleep, anyway, unless he is trying to rival poor old Rip Van Winkle.

Lord Northcliff believes that a newspaper man should not work more than four days a week. Of course, there are readers who feel that some newspaper writers should not work at all. And some newspaper men are of the opinion it would be nice not to work at all—for a while.

An appropriate thought for Paris boys and girls at this time of year: "The expert swimmer often is drowned," says a writer upon how to take precautions in the water. Surely a good swimmer who is drowned more than once must be one with four legs, sharp claws, a long tail and a high temper exhibited at the approach of a dog. So, beware!

A news item in the dailies says: "Ex-Empress Zita goes to Spain to await the stork, the former Kaiser goes to Doorn to await the buzzard, and the average man goes to the corner to await the chicken."

And the rounder goes to the drug store to await the lark. The fake oil man is always waiting for the jay, while the European Conference at Genoa disbanded in disgust after waiting for the dove until it became apparent that bird had flown away in alarm at sight of the crowd that was looking for it. And it would be an impossibility to count the fellows with blackjacks, brass knuckles, sandbags and automatic revolvers who are awaiting the robin.

Trial by Ordeal.

Trial by ordeal still exists in some parts of Japan. If a theft takes place in a household, all the servants are required to write a certain word with the same brush. The conscience is supposed to betray its workings in the waves of the ideographs written. Extracting an ideograph involves such an effort of muscular directness and undivided attention that this device often leads to the discovery of the guilty party. The test is, at all events, more humane than the ordeal of boiling water, to which accused persons were formerly submitted in Japan.

STATE COMMITTEE SAYS: "RE-MEMBER REGISTRATION."

THE NEWS is in receipt of a circular letter from Mr. John M. Atherton, of Louisville, chairman of the Advisory Committee of the Democratic State Central Committee, calling attention to the necessity of all Democrats remembering the registration in the county in July. The letter, which is of the greatest importance, reads as follows:

"The Advisory Committee was appointed by the Democratic State Central and Executive Committee to aid in securing a full registration of the Democrats on the 10 and 11 days of next July. In an effort to aid in this purpose the Committee turns naturally to the Democratic newspapers of the State to obtain the widest publicity of the registration days and to remind Democrats of the duty they owe to their party and their State.

"There is a reward awaiting every voter who registers, as the law provides, in the triumph of his party and its principles and policies, and there is a penalty for failure to register—the voter failing to register can not vote in the coming November election when Congressmen are to be elected.

"The voter must not forget registration days. To avoid this usual excuse of forgetfulness, will you not begin with the first issue of your paper to give conspicuous notice in every issue up to the week of registration.

"Will not the papers give this notice at least twice weekly? Will you extend to the Committee the privilege of sending you short communications to be given prominence in your paper with a view of arousing interest in different sections in State as the development of the campaign may suggest.

"Forgetfulness—too busy to register—men too busy with their work—women too busy with household duties—mothers too busy with their children. These are the obstacles to overcome. These and all other interferences can be overcome by co-operation among the men and women voters in every neighborhood.

"Democrats should be warned against Republican propaganda condemning the registration as useless and expensive. This propaganda will not keep Republicans from registering, but is intended to seduce Democrats not to register. Let all Democrats beware of such tactics. Honest elections beget courageous officials and are cheap at any cost. Address all communications to Seldon R. Glenn, Room 564, Seelbach Hotel, Louisville, Ky."

A DIGEST OF THE REGISTRATION LAW

Dates of registration—July 10th and 11th, 1922.

Time of registration—from 6 a. m. to 9 p. m., on each of these days. Where registration to be held—At each regular voting precinct in the State of Kentucky.

Persons entitled to register—All legal voters, both men and women, and all persons who will become 21 years of age on or before the following November.

Registration officers—Two judges and a sheriff and a clerk in each precinct. The two judges to be of opposite political parties; a like difference between the clerk and sheriff.

Notice to be given—County Board of Election Commissioners to give notice of appointment of registration officers to the Sheriff of the county.

Duty of Sheriff—The Sheriff shall, within ten days next after said appointment, give each officer of registration written notice of his appointment. It is the duty of the county Sheriff to furnish a suitable place in each precinct for the registration.

Clerk of Registration—Notices—Ten days before registration, the Clerk of Registration shall post notices in at least six conspicuous places in the precinct, stating the time and place of the registration.

Return of Registration Books to County Clerk—It is the duty of the officers of registration to return the registration books to the County Clerk not later than three days after holding the registration.

Duties of County Clerk—The County Clerk shall make exact copies of all the registration books, and preserve both the originals and copies in his office. He shall also keep a book showing the names of voters who have changed their voting precincts, and to what place.

The original registration books can only be taken from the Clerk's office for use in any primary, special or general election, or for use in registrations or by officers appointed to purge same, or upon order of Court in any trial growing out of the registration.

Purging Registration Books—At the request of either of the dominant parties, the County Board of Election Commissioners shall, not later than October 1, appoint two officers for any precinct to purge the books of that precinct and who shall meet on Tuesday after the first Monday in October. If the two purging officers disagree, appeal may be taken in the Circuit Court.

The registration officers to be appointed by the regular Board of Election Commissioners of each county in the same manner as regular election officers are appointed and not later than the 20th day of June, 1922, and annually thereafter.

Registrations is for the purpose of purifying elections in Kentucky. The greatest privilege enjoyed by citizens is the right to vote. You can not vote unless you register on July 10th or 11th.

REPUBLICANS LIKE OSTRICH, DECLARES SENATOR STANLEY

While Senator Thomas E. Watson, of Georgia, was attacking Attorney General Harvey M. Daugherty, no Republican Senators were in their seats, and Senator A. O. Stanley, Democrat, of Kentucky, pointed to "the attention the Senator is receiving from the other side." He said that the Republicans, like the ostrich, might "stick their heads in the sand, but about November they will hear the people shout 'Daugherty, Daugherty, Daugherty.'"

Later a number of Republicans took their seats, but no reply was made to the Georgia Senator.

STEADFAST CONFIDENCE

The Following Statement Should Form Conclusive Proof of Merit to Every Paris Reader

Could stronger proof of the merit of any remedy be desired than the statements of grateful endorser who say their confidence has been undiminished by lapse of time? These are the kind of statements that are appearing constantly in your local papers for Doan's Kidney Pills. They are twice-told and confirmed, with new enthusiasm. Can any reader doubt the following? It's from a Paris resident:

Phillip M. Heller, proprietor meat market, 314 Second Street, says: "I have used Doan's Kidney Pills a few times in the past and have been greatly benefited by them. My back was weak and lame and my kidneys acted too frequently, causing me to get up during the night. A box of Doan's Kidney Pills which I got at V-rden & Son's Drug Store gave me fine relief. I certainly think Doan's are a splendid remedy and gladly recommend them to anyone." (State ment given November 9, 1916.) On November 12, 1920, Mr. Heller said: "I am glad to say the cure Doan's Kidney Pills made for me has been lasting. I gladly confirm my former statement."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Heller had. Foster-Milburn Co., Mfrs., Buffalo, N. Y. (adv)

POULTRY, BUTTER AND EGG REVIEW

Demand for creamery butter has been so good that even though production is probably heavier at the present time than ever before known, stocks have kept well sold to dealers wanting butter for current use and for storage purposes.

Under present fine pasture conditions, prospects are for good production to continue for some little time.

Marketing of live hens in producing sections has been extremely heavy for the last ten days, indicating that the number of hens on farms is large, and now that the laying season is about at an end, these fowls are being sent to market.

Demand for fresh dressed poultry also is good and even though the marketing of fowls should continue heavy, indications are for about present values to be maintained.

The movement of eggs—at this time of year is normal, but with changing weather conditions, the demand is now for eggs from more northerly sections.

The government report of reserved stock of eggs in storage shows June first this year 7,936,000 cases, as against 6,844,000 cases same time last year, or a surplus of about 20 per cent. Under these conditions, it would look as though prices for the next few months should be on a reasonable basis to keep eggs going into consumption rather than ending them to storage.

A Draughty Door.

Doors that do not fit very well are often the cause of draughts. This trouble may be overcome by cutting narrow strips from the inner tube of a discarded bicycle tire and fastening them neatly down on the door frame. If the strips are cut exactly to fit they will not be noticeable, for the rubber is not thick enough to make the door difficult to close, yet it will entirely exclude all draughts. The rubber also deadens the noise when the door is suddenly banged.—York Post.

OLD KENTUCKY HOME BOARD IS APPOINTED BY GOVERNOR

Governor Edwin P. Morrow appointed Mrs. A. T. Hert, Mrs. Thurston Ballard, Judge Robert Worth Bingham, C. Lee Cook, Young E. Allison, Marvin H. Lewis, of Louisville, and Ossa Stanley and Arch Pullam, of Bardstown, members of the Old Kentucky Home Commission created by an act of the last legislature.

The act creating the commission appropriated funds to put "Federal Hill, Bardstown, where Stephen G. Foster wrote "My Old Kentucky boys and girls at this time of year: The work of restoring the historic place will be done under the supervision of the commission."

JOCKEY CLUB PAYS TAX

The Kentucky Jockey Club has given up the fight against the city ordinance of Louisville, taxing its machines and paid the secretary of the sinking fund the license tax agreed on for the operation of pari-mutuel machines at Churchill Downs, accepting the city's figures.

Maurice Galvin, of Covington, counsel for the Jockey Club, gave Lawrence Baldau, secretary of the sinking fund, a check for about \$3,500, which covers what the city claims as the balance due. Mr. Galvin stated that the matter had been settled amicably and that no hard feelings resulted.

It was said by an official of the Jockey Club that the club will continue to operate with hooded machines, though not for the purpose of evading a tax. He said that with totalizers in plain view it led many betters to wait around to get a line on the odds and then make a rush at the last minute, many often being cut off by the starting bell.

GOVERNOR NAMES WATSONSON MEMORIAL COMMITTEE

Members of the commission to draft a constitution and by-laws for the Watsonson Memorial Commission were named by Governor Morrow. The committee will meet soon for the purpose of organizing and drafting a constitution and by-laws.

The members are Judge Robert Worth Bingham, Messrs. Edwin M. Flexner, McKenzie R. Todd, Webster P. Huntington, J. M. Atherton, Alexander P. Humphrey, E. A. Jonas, W. B. Haldeman, A. E. Nelson, Owsley Brown, James P. Edwards, of Louisville, Alexander Conto, of New York, Mesdames A. T. Hert, Marion Taylor, W. B. Haldeman and E. M. Flexner.

GROUND TAKEN FOR NEW MASONIC HOME

Four hundred children of the Masonic Widows and Orphans Home took charge of both ceremonies at the 111-acre tract on which the new home will be built on Frankfort avenue in Louisville, at the transfer of the land from the owners to the Million Dollar Committee, which raised the money for the home.

The ceremony included the turning over of the title insurance papers by C. W. Phillips, of the Louisville Title Company, to Jas. Garret, attorney for the board of directors of the home; the property deed was presented by I. Sidney Jenkins, of the Louisville Trust Company to Lee Cralle, board president, and the check in payment of the purchase price, \$72,500, was presented by Allison Holland, of Lexington, chairman of the Million Dollar Committee to one of the former owners.

Markers outlining the boundaries were placed by the children, who also erected a sign showing that the property is the new home site. Motion pictures for fraternal history were made.

Ground is expected to be broken by the time of the October meeting of the Grand Lodge in Kentucky, it was said.

WHERE IS BOHEMIA?

(Ohio State Journal)

Is there still a Bohemia? There seems to be a good deal of doubt even among those best qualified to know. Recently in Paris there was a little celebration in honor of the centenary of Henri Murger, author of "La Vie de Boheme," the real father of modern Bohemianism. The affair called forth quite a bit of comment, mostly to the effect that Bohemia of to-day is conventionally dressed and romantic attitudes are no longer appropriate to its prosaic coats and unattractive hats. While another who maintains that there is still a sort of Bohemia adds: "It is a Bohemia which no longer seeks to triumph over poverty and truculent pride, but the dint of stubborn, tenacious industry."

We hope that this last opinion is true. The Bohemia that means simply pose and careless living we are all tired of. Attempts to establish its picturesque in America have failed, as in the sad case of Greenwich Village, New York, because only the exterior symbols, not the true spirit of Bohemia, was aimed at. The Bohemia that will allow us to dwell unashamed in honest poverty for the sake of honest work, that we want to rediscover; but it can only be found in the mind and the heart.

COMPLIMENTS NEWCOMER TO PARIS

The Marion Falcon, published at Lebanon, Ky., has the following complimentary reference to Mr. Frank S. Benedetti and family, who have recently moved to Paris. Mr. Benedetti opening a handsome confectionery and soda water business in the Nippert Block, on Main street:

"Mr. Frank S. Benedetti and family have moved to Paris, where they expect to make their home in the future. His son, Mr. Louis Benedetti, recently went into business there, and Mr. Benedetti will be associated with him in the confectionery business. He has not sold his home here but expects to rent it for the present."

"The many friends of this good family regret to see them leave Lebanon and can recommend them to the people of Paris and Bourbon county as good citizens."

"Mr. Benedetti asked this paper to state if he has left Lebanon owing anything he does not know it, and that if there is anyone here who has an account against him, he will appreciate it if they will notify him of it at Paris, Ky."

"In moving away, Mr. Benedetti, though born on foreign soil, has set an example in this respect that many native citizens would do well to pattern after."

WOODFORD COUNTY HOME DESTROYED BY FIRE

The home of William Littrell, a tenant on the farm of Dr. John D. Neet, McCoun's Ferry pike, near Versailles, was destroyed by fire Saturday at noon. The contents of the house, valued at \$700, were destroyed. Dr. Neet's loss was \$1,000. Neither had insurance.

BOURBON FARM CONDITIONS

Prospects are good for crops in county this year. Tobacco is growing fast and the corn is looking good. There has been enough rain and sunshine in the past week to keep things growing. The season seems to be well advanced, and the wheat will soon be ready to cut. The blue grass seed crop has been harvested and is being brought in to the handlers. Gardens are looking well.

A number of Bourbon county people attended the meeting of blue grass seed growers held in Winchester Saturday for the purpose of pooling the seed crop. Livestock transactions during the past few weeks have been lively and hogs and sheep are in good demand, with satisfactory prices reported.

Wonder which one of the belligerent armies in China got all of that food and money we Americans so recently sent over to relieve the sufferings of the famine-stricken country.

RELIGIOUS

A Resume of Events in Religious Circles For Present and Future

—Hon. Claude M. Thomas will lead the prayer meeting service Wednesday night at 7:30 o'clock at the Presbyterian church.

—A special meeting of the Christian Science congregation of Paris will be held to-night in the Masonic Temple. Addresses will be made by members from Lexington prominent in the work of the organization.

—A revival meeting which will continue daily until June 26, began at the Paris Baptist church Sunday morning. The pastor, Rev. Arthur Fox, will conduct the services each day during the week at nine o'clock in the morning, and at 7:30 in the evening, and on Sundays at 10:45 a. m. and 7:30 p. m. He will be assisted by Mr. and Mrs. J. Fred Schofield, singing evangelists, who will have charge of the song service. The attendance at the opening meetings Sunday augur well for an increased attendance at each meeting.

—An all-day Elementary Sunday School Institute will be held at the First Methodist Church, in Lexington, on Friday, June 23. Miss Helen Rippetoe, formerly of Paris, will give a demonstration with her large class of beginners in Epworth League work. Rev. C. H. Greer, pastor of the Paris Methodist church, Conference President of the Sunday School, will attend and discuss the subject, "Give More Thought To Children." Dennis V. Snapp, of Paris, Conference Sunday School Secretary, will be present and show the standards which have been adopted by the Sunday School Board for the new quadrennium. Others who will take part are Col. George W. Bain, Rev. W. O. Sadler, Rev. J. E. Savage and Rev. W. L. Southgate.

L. & N. EMPLOYEES GET "SERVICE" BUTTONS

No. brother, that is not a new fraternal organization. Those new buttons you have observed on the coats of various Louisville & Nashville Railroad employees denote years of consistent and loyal support.

This company has adopted the policy of awarding service medals to those in its continuous active service for fifteen years or more. The medals are in the form of buttons for the men and pins for the ladies, of the following descriptions:

For 15 years' continuous active service—Bronze.

For 25 years' continuous active service—Silver.

For 35 years' continuous active service—Silver with Colored Enamel.

For 45 years' continuous active service—Gold with Colored Enamel.

For 50 years' continuous active service—Gold with Diamond.

This recognition of service will be made to those actually in the service of the company, and to those retired by the company from active service on pension, the class of medal going to the latter to be determined by the length of continuous active service at the date of such retirement.

For those whose length of service exceeds 50 years, some sort of special recognition will be awarded by the President.

Quite a number of our citizens are proudly wearing their medals as the employees of the Louisville & Nashville are, generally speaking, a well-contented "family" and there are many of them whose entrance into service dates back a decade or more.

BOSTON MECCA FOR NATION'S TEACHERS

"On to Boston" is the cry in educational circles. The National Educational Association, which has united teachers for 65 years, will hold a monster convention in Boston, July 2 to 8, inclusive. The membership of the association is now about 100,000, and twice the number of delegates which were at Des Moines last year are expected at Boston.

The general theme for the program is "Education and the Democratic Awakening," emphasizing the connection between the great democratic impulse following the war and the intensified interest in every phase of educational endeavor.

Among those who will address the sessions are Mrs. Thos. G. Winter, president of the General Federation of Women's Clubs; Alvin M. Owsley, national director of the American Legion; Mrs. Maud Wood Park, president of the National League of Women Voters; Frederick J. Libby, secretary of the National Council for the Reduction of Armaments, and Gov. Channing H. Cox, of Massachusetts, who will welcome the teachers. Dr. W. G. Cove, president of the National Association of Teachers of England and Wales, is making a special trip to America to attend the Boston convention.

COLORED DOCTOR DEAD

Dr. J. W. Mebane, prominent colored physician, of Paris, died Saturday morning at a Lexington hospital following an illness of several months' duration caused by blood poisoning. Dr. Mebane was a native of North Carolina, and came to Paris about sixteen years ago from Versailles. He leaves a widow and two children.

The funeral will be held this afternoon at St. Paul's Methodist church, with services conducted by Rev. Ball. The interment will follow in the colored cemetery, where services will be conducted by the colored Masonic, Odd Fellows, U. B. F. and K. of P. lodges of Versailles and Paris.

Are You Keeping Alive in Mind, Heart and Soul?

Many folks are healthy bodied, but their minds quit growing when they left school. Science teaches that when things stop growing decay soon follows.

Many people go months and even years without feeling a strong emotion of the heart or of the soul. Many become so hard natured that even the death of an intimate friend fails to affect them.

Don't let your mind decay, or your heart and soul harden from lack of use. Don't miss the big things of life through the careless neglect of your emotional nature.

The Chautauqua ministers to this great personal human need.

The Chautauqua stimulates your mind, warms your heart, awakens your imagination, refreshes your spirit, exercises your emotions, polishes up your social nature, and makes you a happier, better business man and neighbor.

You need to come with your mind, heart and soul ready to receive. Then you will enjoy Chautauqua to the uttermost.

Come to the Chautauqua. Buy season tickets, bring the whole family, give them every opportunity for self-development, attend every session. Hear the lectures—Yutaki Minakuchi, eloquent Japanese on "The Border Land," George Gordon Glick on "What Am I?" Frank Church on "Success, or How to Land on Both Feet," hear the play "Polly of the Circus," hear Kryl and his wonderful Band; Lieurance's Philharmonic Orchestra; The Royal Holland Bell-Ringers; the Artist Trio; Guila Adams, entertainer; and the White and Black Minstrels.

You can get a hundred dollars worth of personal benefit and pleasure out of this Chautauqua, if you will give it your interest, two programs a day for six days, and just two dollars and fifty cents in money, the cost of a season ticket.

PARIS SUMMER SCHOOL STARTS OFF WELL

Ninety-two students were enrolled yesterday for the first day's work in the summer session of the Paris City School. This number is far beyond the expectations of Supt. Lee Kirkpatrick, and shows the need of the summer session, and also shows the interest manifested in the work by the people of the city.

The total enrollment will likely reach one hundred and fifty before the close of the first week. Parents are urged to see that all who need this work get it. It is free to all who live in the city. The sessions will last six weeks.

SECRETARY IS SECURED

The Bourbon County Red Cross Chapter at a recent meeting, decided to maintain a dental clinic for the school children of Bourbon county. The dentists in Paris have agreed to give their services.

The Chapter has employed Miss Inez Candill, of Frenchburg, graduate of Berea College, to work with Mrs. Harriet Minaker, Health and Welfare League nurse, and the school authorities in getting the children to the clinic. Miss Candill will arrive about July 1 to begin her work.

Besides aiding in the dental clinic work, Miss Candill will act as executive secretary of the Chapter, and will direct all branches of Red Cross activities. During the school vacation much of her time will be devoted to cleaning up claims of former service men.

NO KICK ON GAS FOR MOTOR CAR; BUT FOR GAS STOVE —OH!

"The price of gasoline increases constantly—but no one hears of a man selling his car because of the price of gasoline. It's cheaper to walk, but mighty few men walk who can afford a car, and gasoline will have to go a lot higher before anyone will quit using a car because he can't afford to ride. An automobile costs many times the price of a gas range, and the monthly gas bill is but as a drop in the bucket compared to the upkeep of a car, in addition to the high price of gasoline. Think of the repairs and the tires, and the inner tubes, and the thousand and one things for which you have to spend money on your car, and then think of your dependable little old gas range, on the job three times a day every day in the year, of the comfort and satisfaction it brings, and then think of the fuss you sometimes make about the gas bill. No one-place you put your money brings so great results in comfort and labor-saving as does the gas bill, and yet some pay that bill reluctantly, and complain every month at its size. Consider what gas does for you and your household, and compare its price with any other of your expenses and your opinion of your gas bill may improve.

WOULD HARNESS HEAT OF KILAUEA

Borings in Volcano Suggested to See if It Can Be Converted Into Power.

EXPERTS SEE POSSIBILITIES

Tentative Plans for the Experiment Embrace at Least 50 Borings to Provide Thermal Map of Hot Belt of Volcano.

Honolulu.—An immediate start on experimental borings in the bed of the active volcano of Kilauea, on the island of Hawaii, to determine whether the heat of the volcano can be harnessed and converted into electrical power, was urged by Dr. T. A. Jaggar, director of the Volcano observatory, at the annual meeting of the Volcano Research association here.

Doctor Jaggar said that tentative plans for the experiment embraced at least 50 borings so located as to provide a thermal map of the hot belt of the volcano. The first boring would be sunk to a depth of 200 or 300 feet in the center of the crater, with the others at 50 to 100 feet deep, depending upon the nature of the resultant discoveries.

Borings in Lava Beds.

Most of these borings will be made at the source of old lava flows.

The meeting, commemorative of the tenth anniversary of the founding of the research association, decided that the borings should not be made until subscriptions totaling \$8,000 had been obtained to defray the expenses. Of this sum \$7,000 already has been donated.

Doctor Jaggar also recommended the construction of a practicable pack trail to the summit of Mauna Loa, 14,000 feet above sea level. Kilauea is situated 4,000 feet above sea level, on the slopes of Mauna Loa. Doctor Jaggar said that he expected a summit outbreak of Mauna Loa, in the crater of Mokuaweoweo, next year, or in the year 1924, as nine years will have lapsed then since Mauna Loa's last activity.

Wants House for Scientists.

He also urged the construction of a house at the summit in order that scientists might be quartered there in anticipation of this outbreak, as nobody has been known to have witnessed the first stages of one of Mauna Loa's activities.

Previously attention has always been attracted to the outbreak at the summit by the reflection in the clouds above of the glow of the boiling fire fountains which had risen through the summit crater. The board of directors endorsed this suggestion.

Doctor Jaggar's report reviewed the work of the research station on the brink of Kilauea volcano and the activities of the association.

TAKES MAN'S LEG FOR BOARD

Landlady Steals Artificial Limb of Joseph Bonarsky When Bill Runs Too High.

Philadelphia.—A wooden leg, an irate landlady and a board bill of \$24 caused Joseph Bonarsky, the boarder who "forgot" to pay, to hobble into the Second and Christian street police station, using a frayed broom as a crutch. He told the desk sergeant that his landlady, Mrs. Julia Snyder, of 835 South Front street, had taken his wooden leg from him while he slept. He demanded its return.

"She took it," Joseph said, "as security for a board bill. The leg cost me \$150. And I hid \$10 in it before I went to bed."

Police were sent to bring Mrs. Snyder and the leg to the station house. "He owes me \$24 for three months' room and board. 'I only took the leg for security,'" she said.

Joseph finally unraveled paper and silver money from various parts of his clothing and upon giving this to Mrs. Snyder he received his leg.

Minister of Communications Proposes That Government Unite Two Departments.

Stockholm.—A postal checking account system whereby the Swedish post office department will be enabled to do a limited commercial banking business is proposed in a bill recently submitted to the riksdag and sponsored by Anders Oerne, minister of communications. The bill also provides that the present postal savings department be merged with the post office service.

"REFLECTING" UPON THE PRESIDENT

Chairman of the House Rules Committee, Representative Campbell (Kansas); Republican floor leader Mondell (Wyo.), and Speaker Gillette, acting in concert, evidently imagined they are doing President Harding a service by preventing consideration of the resolution introduced by Representative Woodruff (Mich.), and Johnson (S. D.), both Republicans, for an investigation of the Department of Justice. According to leader Mondell the passage of the resolution will be a "reflection upon the President." But what kind of a reflection upon the President is to when three of his alleged friends combine to prevent an investigation of a personal friend of the President and a member of his Cabinet against whom grave charges are pending? Mr. Harding himself could not assume such an attitude without subjecting himself to severe criticism. The only reflection on him so far is in the appointment of Harry M. Daugherty to be Attorney General, but this reflection would be greatly intensified if the President's henchmen in Congress succeeded in preventing an investigation of the

charges against Attorney General Daugherty.

The same plea was made that it would be a reflection upon President Taft to investigate the Pinchot charges against Secretary of the Interior Ballinger in 1911—but Ballinger had to go.

Moons of the Planets.

A moon is an attendant that circles about the planet of a sun. It is the satellite of a satellite. The distinction between moon and planet is not one of size. Two moons in the solar system—Titan of Saturn and Gany-mede of Jupiter—are larger than the planet Mercury, and rival the planet Mars. Many moons exceed the asteroids, or tiny planets. A satellite is held in sway by both sun and planet. It is ruled by two masters, and of these the sun is always the stronger partner.

An Appealing Array of Complete Bedroom Outfits

No room in the house should receive more attention to detail of decoration and furnishing than the bedroom. Pleasant, tastily furnished sleeping quarters is every woman's desire, and can be easily achieved if the proper furniture is selected. A bedroom suite, of course, should harmonize with the size and general layout of the room in which it is to be placed. For this reason we advise that you allow us to assist in making your selection.

Furniture for the bedroom may be obtained in suites of various number of pieces or in individual articles. In all probability it will be possible to add a dainty vanity or chiffonette to the suite you already have. However, as no other kind of furniture receives the consistent hard wear that bed-

room furniture does, it is imperative to pick articles that can be relied upon for dependable lasting service. With this fact in mind we feel remarkably well equipped to furnish you with bedroom furniture of the highest quality. Come in tomorrow and see our complete display of this line.

OLD-TIME PARLORS

Do you remember the old-time parlors of a generation ago? They were great show places, with their frill gilded chair, settee upholstered in horsehair, family album, stereoscope, china parlor lamp hand-painted in gorgeous colors, and the footstools made of six tin cans covered with carpet.

Over in the corner was the "what-not," its shelves littered with sea shells, souvenirs from the Philadelphia Centennial and the jug covered with an amazing collection of junk imbedded in putty.

Awe-stricken children used to peek into the parlor when mother was out in her new alpaca "leaving cards on" the banker's wife and other social lights.

For one was allowed in the parlor only on stated occasions—funerals, when the minister called, when "company came" or when sister en-

tertained the young sport who drove up in a side-bar buggy. Shades were drawn in the daytime or shutters closed to keep the sun from fading the brussels carpet.

Next to the parlor was the sitting room, center of home life, where Little Willie read "Rollo in Paris," mother darned the socks and later read "Godey's Lady's Book," and father read the headache news from Washington, close up to the smoking oil lamp, squinting his eyes as he peered through "specs."

We laugh at that atmosphere now. But it produced some "mighty substantial folks."

THE BOURBON NEWS,

MONTHLY BUSINESS REVIEW TELLS TOBACCO PROSPECTS

The Monthly Business Review, published at Cleveland, Ohio, under the auspices of the Fourth Federal Reserve District, and the Federal Reserve Bank, has the following short review of the Burley district:

"The tobacco situation in the Burley section is especially good at the present time. The Burley Tobacco Growers' Co-operative Association has re-dried and placed in storage that portion of the 1921 crop which it did not sell in loose leaf form. An advance was made to the growers at the time they delivered their tobacco to the Association and a second payment is due the latter part of May.

"Reports from Western Kentucky indicate that the dark tobacco growers' association movement is spreading rapidly and that a considerable proportion of the crop has already been signed up. This association cover the various dark tobacco types, both the dark fire cured and the air cured tobaccos. It is based on obtaining a sign-up of at least two thirds of the tobacco growers and it is expected that this proportion will be obtained during the time limit set, so that the 1922 crop will be handled by the association."

RESULTS WERE A BIG SURPRISE STATES NURSE

Had To Have Something To Pull Her Through When Near Collapse From Overwork—Chose Tanlac and Was Fully Restored, She Says.

Mrs. A. J. Mercer, 655 Neave St., Cincinnati, Ohio, a practical nurse for twenty years, has given the following interesting statement about Tanlac:

"I suffered a nervous shock from an accidental death in my family, then found it necessary for me to earn a living for my three children. I re-entered the ranks of practical nurses and worked so hard I was on the verge of a collapse. My nerves were shattered I had no appetites, ate only from necessity and suffered from insomnia. My work was a burden and I saw I had to get myself built up.

"I began taking Tanlac and improved almost from the first. It was really surprising the way I began to pick up. I gained ten pounds, and my work is much easier. My son seemed to have malaria and I gave him Tanlac. His improvement also was most gratifying. We got such good results I am glad to give this testimonial."

Tanlac is sold by all good druggists. (adv)

PURE WATER WITHOUT COLOR

Water in its purest state is practically colorless, except that it has a blue tint when a considerable amount of it is viewed together. The water of Loch Katrine in Scotland is nearly pure chemically, although it contains a very small amount of carboniferous matter, which gives it a faint brown tinge. Water, under some circumstances, looks as if it was full of color, and this happens when light thrown upon it is reflected back again, as in the case of a soap bubble and of a rainbow, the latter being formed of drops of rain that reflect back the sunlight, broken up into its different parts which resemble the colors of a rainbow. Stagnant or "bad" water seems to have colors on it because of the different forms of life growing on its surface and forming layers which reflect the light back and forth. The waves of life interfere with each other and cause colors. Perfectly pure water has a taste from the salts dissolved in it and from the atmospheric gases, nitrogen, oxygen and carbon dioxide which it contains.

WANTS MORE MONEY FOR EDUCATIONAL PURPOSES

Dr. Frank L. McVey, president of the University of Kentucky, delivered the commencement address to forty-four graduates of the Louisville Normal School last week.

Dr. McVey told the new teachers that America's greatest problems are economics. He deplored the fact that an attempt is being made to erect a barrier to a much-needed foreign trade in the shape of a protective tariff.

The educator indicated that there is something wrong with a nation that will spend billions for liquor and tobacco, as the United States did in 1919, and will neglect to provide additional funds required for education.

The teachers were told that upon them will fall the task of imparting to future citizens a conception of fundamental principles of economics.

"Although your field does not yield a great financial return, there is none in which greater happiness can be had," Dr. McVey said.

Solitaire.

Solitaire is a game played on a board invented with 33 or 37 hemispherical hollows, with the same number of balls or marbles. An unoccupied hollow is left by removing one ball, and the balls, or pieces, are then captured as in checkers. No moves are allowed in diagonal directions or over more than one space at a time. The trick is to leave a solitary ball in the center hole.

Destructive Volcanic Outburst.

Rising to a height of 13,000 feet, only a few miles from Kilaua, is the great volcano of Mauna Loa, which has intermittent eruptions, the last one of great violence beginning in October, 1919, and continuing for five months, the flow coming from a split in the mountain far down upon its flank. The black rolls of treacle lava flowed for miles through the sand flats, forests and bare rock slopes, finally emptying into the sea, where giant clouds of steam rose day and night. Myriads of sea fish were killed by the boiling water.

Nothing New.

Narratives in prehistoric manuscripts recently unearthed in Greece are of little interest. Most of us have heard them all in after-dinner speeches. —James J. Montague.

—The streets of Millersburg have been given a fresh coat of oil. Several accidents of a minor nature have been caused by people slipping on the heavy coat of oil.

—Miss Hazel Kerr and Mr. Frank C. Henry were married Thursday afternoon at 4 o'clock, at the home of the bride, near Millersburg. The Rev. G. W. Nutter, pastor of the Christian Church, officiated. The bride wore a traveling suit of dark

blue, gray hat and gloves. Mrs. M. C. Grimes presided at the piano. Miss Dorothy Bonar, cousin of the bride, sang, "O, Promise Me," and "I Love You Truly." The happy couple will be at home in Carlisle after a short bridal trip.

DEATHS

Life Is But A Brief Span, A Debt That All Must Pay

FISHBACK

—John Fishback, eighty-seven years, died at the home of his son, Jesse Fishback, in this city, following a long illness, due to a complication of diseases. Mr. Fishback was a native of Nicholas county, where he resided until a year ago, when he moved to Paris to make his home with his son. He is survived by two sons, George Fishback, of Eminence, and Jesse Fishback, of Paris.

The body was taken to Carlisle, where the funeral was held Saturday afternoon at one o'clock. Services were conducted at the grave in the Carlisle Cemetery by Rev. Bela Matcalfe, of Carlisle.

QUINBY

—Following a protracted illness due to a complication of diseases, Mrs. Lucy Redmon Quinby, formerly a resident of Paris, died at an early hour Friday morning in a Lexington hospital.

Mrs. Quinby was a daughter of the late Mr. and Mrs. John T. Redmon, and was a native of this county, being born near Ruddles Mills, in 1861. At the time of her death she was in her sixty-first year.

Mrs. Quinby is survived by two children, Mrs. Roy Bashus, of Missouri, and Rodney Quinby, of Oklahoma City, and by the following following brothers and sisters: Miss Imogene Redmon, Mrs. Edward Speakes, Claude F. Redmon, George K. Redmon and King Redmon, all of this city.

The body was brought to Paris Saturday morning and taken to the home of her brother, Claude F. Redmon, on Cypress street. The funeral was held at Redmon home Sunday afternoon, with services conducted by Rev. T. S. Smylie, pastor of the Paris Presbyterian church. The interment followed in the Paris Cemetery. The pall-bearers were: Wm. Turner, Robert Turner, Chas. Leer, Green Leer, M. F. Kenney, L. D. Redmon.

LEER

—Charles Carroll Leer, aged eighty-seven, one of the best-known farmers in Bourbon county, died at his home, on the Maysville pike, near Paris, Saturday night, at eight o'clock, after a lingering illness.

Mr. Leer was a son of the late David and Cordelia Fleming Leer, pioneer citizens of Bourbon county. He was born within a mile of the site of the residence in which he died and where he had lived for over fifty years. Mr. Leer was an authority on matters connected with the history of Paris and Bourbon county, and was one of the best-posted men on general affairs that the county contained. He was noted for having a most remarkable memory, and was often consulted by parties making notes on the history of the city and county. He was a man of education and talent, and well informed in all that pertained to county, State and National events.

Mr. Leer is survived by his widow, Mrs. Adella Ewing Leer, and one daughter, Miss Carroll Leer, and one son, Courtland Leer, both of whom reside at home.

The funeral was held at ten o'clock yesterday morning, with services conducted at the grave in the Paris Cemetery, by Rev. T. S. Smylie, pastor of the Paris Presbyterian church.

A most unusual circumstance was witnessed at the funeral, the pall-bearers, fourteen in number, were all nephews, grand-nephews and first cousins of Mr. Leer, who had expressed a wish that his remains might be carried by them to the last resting place in "the city of the dead."

Great Divide into the unknown world at eleven o'clock yesterday morning, following a long illness from the inroads of an insidious disease which had fastened upon her. In the same house in which her sister, Miss Nellie Fithian, passed away from the same cause about a week ago, the end came.

Mrs. Webb was a daughter of the late Dr. Joseph and Emily Fithian, whose high Christian character and good deeds are enshrined in the hearts of Paris people for all time. She was educated in the schools of Paris, and afterward attended other educational institutions, where she graduated with high honors. Several years ago she was married to Charles D. Webb, former Mayor and Police Judge of Paris, and city editor of THE NEWS. Mr. Webb died a few years ago. Mrs. Webb became interested in the business life of Paris, and purchased the Paris Book Company business from Mrs. W. A. Johnson, which she successfully conducted to the time her increasing illness forced her to retire from active business. At the time of her death she was fifty-eight years of age.

Mrs. Webb is the last of her family, her parents, her brother and sister having passed away. She is survived by one nephew, George White Fithian and two nieces Misses Emily and Josephine Fithian, of Paris, children of her deceased brother, Dr. Frank Fithian.

The funeral will be held at four o'clock this (Tuesday) afternoon, with services conducted at the grave in the Paris Cemetery, by Rev. T. S. Smylie, of the Paris Presbyterian church, assisted by Rev. Frank J. Cheek, of Danville, her former pastor. The interment will take place on the family lot following the service. The pall-bearers: will be Newton Mitchell, Owen L. Davis, John M. Brennan, Albert Hinton, Buckner Woodford, John Woodford, James McClure, C. B. Mitchell.

Mr. Frank Congleton Henry Thursday, June the eighth, 1922, Millersburg, Kentucky."

"At Home Carlisle, Kentucky."

HAWKINS—MORRIS

—John Morris and Miss Mary Hawkins, both of Bourbon county, secured marriage license from County Clerk Pearce Paton, and were married shortly after by County Judge George Batterton, in his office in the court house. The groom is a son of Mr. and Mrs. Dane Morris and the bride is a daughter of Mr. and Mrs. Ellis Hawkins, of near Paris.

WILL PROBATED

The last will and testament of the late George R. Bell, was admitted to probate in the County Court by County Judge George Batterton. Duncan Bell, only son of the deceased, qualified as executor of the estate, by furnishing bond in the sum of \$2,500, no security being required.

DESERVING DEMOCRATS — CLASS A1.

The editor of THE BOURBON NEWS is going to let Richard Linthicum, Director of Publicity of the Democratic National Committee, write this editorial:

The term "deserving Democrat" is one that can be applied with greater truthfulness and greater justice to editors of Democratic newspapers than perhaps to any other element in the Democratic party. This can be said without disparagement of any other Democrats, because the party is largely made up of men and women who deserve well, not only at the hands of their party, but at the hands of the public as well. But the Democratic editor can be fairly put in class A1.

In politics, as in war, it is the boy in the front-line trench that wins our admiration and our gratitude, because when he falls all fall. The Democratic editor is a first-line trench man all the time. He is al

ways in closest and most frequent contact with "the enemy." He is the first to see a sign of weakness in the opposite trenches and to take advantage of it. In a charge he constitutes the front rank.

Whether his paper be a daily or a weekly he is always on duty. In defeat he is the first to feel the bad effect; in victory he is the first one "over the top," but he does not always share a just reward, but he should be among the very first.

Every Democrat owes a duty to his party, and that duty is only partly performed when he or she votes the Democratic ticket. There are long periods between elections when many Democrats give little or no thought to the men in the first-trenches. Unless these are supported and loyally supported, chances of victory are minimized. Support of the organization—and by organization we mean National, State, county and precinct—and support of the Democratic press is not only the

duty of all Democrats, but it is a duty that practically every Democrat can perform without hardship.

Hundreds of thousands of dollars are wasted in campaigns by candidates and party committees because they do not know how to spend it to the best advantage. If Democratic candidates and committees would consult with the local Democratic editors, these sums could be expended in the most legitimate and effective way. With proper co-operation between candidates, committees and local editors the maximum results only can be obtained. There is no danger that the Democratic press will be or can be Newberryized, because such methods are repugnant to Democratic organizations and candidates, and the Democratic press itself is intellectually and otherwise honest.
